

CONSTRUCTION OF PROPOSED FINANCIAL SERVICES COMMISSION BUILDING
Little Bay, Montserrat

Addendum No: FSC-02

Issue Date: December 7th, 2020

The following modifications have been made to the Tender Document to correct errors and omissions in the drawings and specifications, and also to provide clarification on some material specifications. These modifications may affect the calculation of material prices and must be taken into account in the final bid submission.

Part B 10.1 The Working Drawings

The modifications made to four architectural drawing sheets are summarized as follows:

1.	Sheet A-06.1-Interior Glass Partition Elevations has been modified to add the <i>W3 Interior Glass Partition Elevation</i> as detail No. 6 on this sheet. The <i>W3</i> detail was relocated from Sheet A-14.1 Exterior Storefront Details where it was incorrectly placed and labeled as an Exterior Storefront. Notes have also been added to this sheet which provide material specification information for the Interior Glass Partitions to be supplied, which was not included the published Particular Specifications.
2.	Sheet A-13-Window Schedules has been modified to correctly describe the <i>Type Mark W3</i> unit as an <i>Interior Glass Partition</i> instead of an <i>Exterior Storefront</i> .
3.	Sheet A-14.0-Window Details 1 has been modified to add to the existing notes on this sheet. This addition to the notes summarizes the material specification information for the windows to be supplied which was presented in detail in the published Particular Specifications. This note also indicates the required glazing and frame finish options chosen for all windows.
4.	Sheet A-14.1-Exterior Storefront Details has been modified to add notes on this sheet summarizing the material specification information for the storefronts and entrances to be supplied which was presented in detail in the published Particular Specifications. This note also indicates the required glazing, frame finish, and hardware options chosen for all storefronts.

These four modified drawings are included herewith as part of this addendum.

Signed:

Commissioner, Financial Services Commission
