

Financial Services Commission

23 June 2023

Advisory Notice: FSC2023/02

Money Laundering and Terrorist Financing Controls in Higher Risk Jurisdictions

Requirement to apply Enhanced Due Diligence for higher risk jurisdictions.

The Anti-Money Laundering and Terrorist Financing Regulations (AML/TF Regulations) require all service providers licensed and registered on Montserrat to apply enhanced customer due diligence in relation to high-risk countries.

Regulation 7(1)(b) of the AML/TF Regulations requires relevant businesses ("service providers") to apply enhanced customer due diligence measures and enhanced ongoing monitoring in any business relationship with a person "connected with a country that does not apply, or insufficiently applies (higher risk jurisdictions) the Financial Action Task Force (FATF) Recommendations.

For these purposes, *Regulation 5(1) and (5)(a)* prescribes that a service provider shall apply customer due diligence measures and conducting ongoing monitoring in the following instances:

- before the service provider establishes a business relationship or carries out an occasional transaction;
- where the service provider—
 - suspects money laundering or terrorist financing; or
 - doubts the veracity or adequacy of documents, data or information previously obtained under its customer due diligence measures or when conducting ongoing monitoring; and
- at other appropriate times to existing customers as determined on a risk-sensitive basis.
- assess the risk that any business relationship or occasional transaction involves, or will involve, money laundering or terrorist financing, depending upon the type of customer, business relationship, product or transaction;

Code 12(h) to (l) of the Anti-Money Laundering and Terrorist Financing Code 2016 (the Code) further prescribes that a service provider shall apply enhanced customer due diligence measures in the following instances:

- a country identified as not having adequate AML/CFT systems, by credible sources including mutual evaluation, detailed assessment reports or published follow-up reports;
- a country subject to a sanction, embargo or similar measure;
- a country identified by credible sources as having a significant level of corruption or other criminal activity;
- circumstances which give rise to suspicion of money laundering or terrorist financing; and
- if a high risk is identified through a national risk assessment or an adequate analysis of risk by the service provider, if a national risk assessment does not exist.

As the international anti-money laundering and counter-terrorist financing (AML/CTF) standard-setter, FATF regularly publishes statements; 'Jurisdictions under increased

monitoring’ and ‘High-risk jurisdictions subject to a call for action’ that identify high-risk countries based on assessments of their AML/CTF regimes. In line with AML/TF Regulation (7)(1)(b), the Financial Services Commission would like to draw service provider’s attention to the latest publication by FATF on high-risk jurisdictions.

FATF Public Statement

On 23 June 2023 the FATF published two statements identifying jurisdictions with strategic deficiencies in their AML/CTF regimes. These statements can be found at **Annex A** and **Annex B** respectively.

In response to the latest FATF statements, the Financial Services Commission advises relevant businesses to implement the following instructions:

Financial Services Commission Advice: FSC No.2	Consider as high risk and apply counter measures and enhanced due diligence measures in	Take appropriate actions to minimise the associated risks, which may include enhanced due diligence measures in high- risk situations.
Jurisdictions:	DPRK Iran Myanmar	<ol style="list-style-type: none"> 1. Albania 2. Barbados 3. Burkina Faso 4. Cameron 5. The Cayman Islands 6. The Democratic Republic of the Congo 7. Croatia 8. Gibraltar 9. Haiti 10. Jamaica 11. Jordan 12. Mali 13. Mozambique 14. Nigeria 15. Panama 16. Philippines 17. Senegal 18. South Africa 19. South Sudan 20. Syria 21. Tanzania 22. Türkiye 23. Uganda 24. United Arab Emirates

		Take appropriate actions to minimise the associated risks, which may include enhanced due diligence measures in high-risk situations.
		25. Vitenam 26. Yemen

*These jurisdictions are subject to financial sanctions measures at the time of publication of this notice which require firms to take additional measures. Details can also be found here: www.fscmontserrat.org under the heading “**Notices**” for future reference.

Background Information

1. This advice replaces all previous advisory notices issued by the Financial Services Commission on this subject.
2. The Financial Action Task Force is an inter-governmental body established by the G7 in 1989 and today includes as members 37 jurisdictions and two regional organisations (the European Commission and the Gulf Co-operation Council).
3. The Commission’s strategy is to use financial tools to deter crime and terrorism; detect it when it happens; and disrupt those responsible and hold them to account for their actions. The FATF is central to Montserrat’s international objectives within this strategy.
4. The Anti-Money Laundering and Terrorist Financing Regulations and the Anti-Money Laundering and Terrorist Financing Code 2016, require relevant businesses to put in place policies and procedures in order to prevent activities related to money laundering and terrorist financing. Regulated persons and businesses are also required to apply enhanced customer due diligence and enhanced ongoing monitoring on a risk-sensitive basis in certain defined situations and in any other case which by its nature can present a higher risk of money laundering or terrorist financing.
5. The Financial Services Commission requires relevant businesses to take reasonable care to establish and maintain systems and controls for countering the risk that the relevant business might be used to further financial crime.

Enquiries

6. Enquiries about the implementation of measures with regards to public statements should be addressed to:

Annex A: Relevant extracts from the FATF’s statement on High-Risk Jurisdictions subject to a Call for Action

“High-Risk Jurisdictions subject to a Call for Action (Unchanged from February 2020 and October 2022) – February 2023”

High-risk jurisdictions have significant strategic deficiencies in their regimes to counter money laundering, terrorist financing, and financing of proliferation. For all countries identified as high-risk, the FATF calls on all members and urges all jurisdictions to apply enhanced due diligence, and, in the most serious cases, countries are called upon to apply counter-measures to protect the international financial system from the money laundering, terrorist financing, and proliferation financing (ML/TF/PF) risks emanating from the country. This list is often externally referred to as the “black list”. Since February 2020, in light of the COVID-19 pandemic, the FATF has paused the review process for Iran and DPRK, given that they are already subject to the FATF’s call for countermeasures. Therefore, please refer to the statement on these jurisdictions adopted on 21 February 2020. While the statement may not necessarily reflect the most recent status of Iran and the Democratic People’s Republic of Korea’s AML/CFT regimes, the FATF’s call to apply countermeasures on these high-risk jurisdictions remains in effect.

Democratic People’s Republic of Korea (Unchanged since February 2020)

The FATF remains concerned by the DPRK’s failure to address the significant deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime and the serious threats they pose to the integrity of the international financial system. The FATF urges the DPRK to immediately and meaningfully address its AML/CFT deficiencies. Further, the FATF has serious concerns with the threat posed by the DPRK’s illicit activities related to the proliferation of weapons of mass destruction (WMDs) and its financing.

The FATF reaffirms its 25 February 2011 call on its members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with the DPRK, including DPRK companies, financial institutions, and those acting on their behalf. In addition to enhanced scrutiny, the FATF further calls on its members and urges all jurisdictions to apply effective counter-measures, and targeted financial sanctions in accordance with applicable United Nations Security Council Resolutions, to protect their financial sectors from money laundering, financing of terrorism and WMD proliferation financing (ML/TF/PF) risks emanating from the DPRK. Jurisdictions should take necessary measures to close existing branches, subsidiaries and representative offices of DPRK banks within their territories and terminate correspondent relationships with DPRK banks, where required by relevant UNSC resolutions.

Iran (Unchanged since February 2020)

In June 2016, Iran committed to address its strategic deficiencies. Iran’s action plan expired in January 2018. In February 2020, the FATF noted Iran has not completed the action plan.[\[2\]](#)

In October 2019, the FATF called upon its members and urged all jurisdictions to: require increased supervisory examination for branches and subsidiaries of financial institutions based in Iran; introduce enhanced relevant reporting mechanisms or systematic reporting of financial transactions; and require increased external audit requirements for financial groups with respect to any of their branches and subsidiaries located in Iran.

Now, given Iran’s failure to enact the Palermo and Terrorist Financing Conventions in line with the FATF Standards, the FATF fully lifts the suspension of counter-measures and calls on its members and urges all jurisdictions to apply effective counter-measures, in line with Recommendation 19.[\[3\]](#) Iran will remain on the FATF statement on [High Risk Jurisdictions Subject to a Call for Action] until the full Action Plan has been completed. If Iran ratifies the Palermo and Terrorist Financing

Conventions, in line with the FATF standards, the FATF will decide on next steps, including whether to suspend countermeasures. Until Iran implements the measures required to address the deficiencies identified with respect to countering terrorism-financing in the Action Plan, the FATF will remain concerned with the terrorist financing risk emanating from Iran and the threat this poses to the international financial system.

Myanmar (Unchanged since October 2022)

In February 2020, Myanmar committed to address its strategic deficiencies. Myanmar's action plan expired in September 2021.

In June 2022, the FATF strongly urged Myanmar to swiftly complete its action plan by October 2022 or the FATF would call on its members and urge all jurisdictions to apply enhanced due diligence to business relations and transactions with Myanmar. Given the continued lack of progress and the majority of its action items still not addressed after a year beyond the action plan deadline, the FATF decided that further action was necessary in line with its procedures and FATF calls on its members and other jurisdictions to apply enhanced due diligence measures proportionate to the risk arising from Myanmar. When applying enhanced due diligence measures, countries should ensure that flows of funds for humanitarian assistance, legitimate NPO activity and remittances are not disrupted.

Myanmar has continued to work with the FATF to strengthen the effectiveness of its AML/CFT regime by raising awareness and supervising FIs and DNFBPs for compliance with targeted financial sanctions.

Myanmar should continue to work on implementing its action plan to address these deficiencies, including by: (1) demonstrating an improved understanding of ML risks in key areas; (2) demonstrating that on-site/offsite inspections are risk-based, and hundi operators are registered and supervised; (3) demonstrating enhanced use of financial intelligence in LEA investigations, and increasing operational analysis and disseminations by the FIU; (4) ensuring that ML is investigated/prosecuted in line with risks; (5) demonstrating investigation of transnational ML cases with international cooperation; (6) demonstrating an increase in the freezing/seizing and confiscation of criminal proceeds, instrumentalities, and/or property of equivalent value; and (7) managing seized assets to preserve the value of seized goods until confiscation.

The FATF urges Myanmar to work to fully address its AML/CFT deficiencies, including to demonstrate that its monitoring and supervision of MVTs is based on documented and sound understanding of ML/TF risks to mitigate undue scrutiny of legitimate financial flows.

Myanmar will remain on the list of countries subject to a call for action until its full action plan is completed.

Annex B: Relevant extracts from the FATF's Statement on Jurisdictions under Increased Monitoring – June 2023

Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the “grey list”.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions below as they report on the progress achieved in addressing their strategic deficiencies. The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions. The FATF Standards do not envisage de-risking, or cutting-off entire classes of customers, but call for the application of a risk-based approach. Therefore, the FATF encourages its members and all jurisdictions to take into account the information presented below in their risk analysis.

The FATF identifies additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF or their FSRBs, but will be in due course.

The FATF provides some flexibility to jurisdictions not facing immediate deadlines to report progress on a voluntary basis. The following countries had their progress reviewed by the FATF since February 2023: Albania, Barbados, Burkina Faso, Cayman Islands, Democratic Republic of Congo, Gibraltar, Jamaica, Jordan, Mali, Mozambique, Panama, Philippines, Senegal, South Africa, South Sudan, Türkiye, UAE, and Uganda. For these countries, updated statements are provided below. Haiti, Nigeria, Syria, Tanzania and Yemen chose to defer reporting; thus, the statements previously issued for those jurisdictions are included below, but it may not necessarily reflect the most recent status of the jurisdictions' AML/CFT regimes. Following review, the FATF now also identifies Cameroon, Croatia and Vietnam.

Albania

In February 2020, Albania made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime. At its February 2023 plenary, the FATF made the initial determination that Albania substantially completed its action plan. However, at that time, the FATF decided not to authorize an on-site visit to the country because it was concerned that Albania's apparent plans to establish a Voluntary Tax Compliance (VTC) program did not comply with the FATF's principles for managing the AML/CFT implications of VTC programs or FATF's best practices in this area.

At its June 2023 plenary, Albania confirmed its abandonment of the planned VTC program and committed to respect the FATF principles and best practices on VTC programs if it considers adopting a VTC program in the future. As a result, the FATF made the determination to conduct an on-site assessment to verify that the implementation of Albania's AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future. The FATF notes that the introduction of a VTC program disregarding the FATF principles and best practices would impact the FATF's consideration of a country's progress towards addressing its AML/CFT deficiencies and its commitment to improve its AML/CFT regime. The FATF will continue monitoring Albania and any VTC programme developments.

Barbados

Since February 2020, when Barbados made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, Barbados has taken steps towards improving its AML/CFT regime, including by, demonstrating that accurate and up-to-date beneficial ownership information is available on a timely basis, and by pursuing repatriation and sharing of confiscated assets with other countries. Barbados should continue to work on implementing its action plan to address its strategic deficiencies by demonstrating that the levels of suspicious activity reporting by certain reporting entities are in line with risks.

The FATF expresses concern that Barbados failed to complete its action plan, which fully expired in April 2022. The FATF strongly urges Barbados to swiftly demonstrate significant progress in completing its action plan by October 2023 or the FATF will consider next steps if there is insufficient progress.

Burkina Faso

In February 2021, Burkina Faso made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime. Burkina Faso should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) updating its understanding of ML/TF risks, including through the revision of the national risk assessment in line with the sectoral priorities identified in its national strategy; (2) strengthening of resource capacities of all AML/CFT supervisory authorities and implementing risk based supervision of FIs and DNFBPs; (3) maintaining comprehensive and updated basic and beneficial ownership information of legal persons and strengthening the system of sanctions for violations of transparency obligations; (4) increasing the diversity of suspicious transactions reporting; (5) establishing procedures for effective implementation of declaration of cross-border declaration of currencies and bearer negotiable instruments; (6) enhancing cooperation between LEAs and prosecutorial authorities combatting TF and conducting TF investigations and prosecutions in line with its risk profile; and (7) implementing an effective targeted financial sanctions regime related to TF and PF as well as risk-based monitoring and supervision of NPOs.

The FATF notes Burkina Faso's continued progress across its action plan, however all deadlines have now expired and work remains. The FATF urges Burkina Faso to swiftly implement its action plan to address the above-mentioned strategic deficiencies as soon as possible as all deadlines expired in December 2022.

Cameroon

In June 2023, Cameroon made a high-level political commitment to work with the FATF and GABAC to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in October 2021, Cameroon has made progress on some of the MER's recommended actions by increasing the resources of the FIU and building the capacity of investigation authorities and judicial bodies to effectively conduct ML/TF cases. Cameroon will work to implement its FATF action plan by: (1) Aligning AML/CFT national strategies and policies with the findings of the NRA and monitoring their implementation, and demonstrating AML/CFT cooperation and coordination between competent authorities; (2) Ensuring risk-based prioritisation of incoming international cooperation requests in line with risks and responding in an effective manner; (3) Enhancing risk-based supervision of banks and implementing effective risk-based supervision for non-bank FIs and DNFBPs, and conducting appropriate outreach to high-risk FIs and DNFBPs; (4) Maintaining and ensuring timely access by competent authorities to adequate and up to date beneficial ownership information on legal persons, and establishing a sanctions regime for violations of transparency obligations applicable to legal persons; (5) Enhancing secure information exchange between the FIU, reporting entities and competent authorities and demonstrating an increase in dissemination of intelligence reports to support operational needs of competent authorities;

(6) Demonstrating that authorities are able to conduct a range of ML investigations, and prosecute ML in line with risks; (7) Implementing policies and procedures for seizing and confiscating proceeds and instrumentalities of crime and managing frozen, seized and confiscated property, and prioritising seizure and confiscation of assets at the border; (8) Demonstrating that TF investigations and prosecutions are pursued in line with risk; and (9) Demonstrating effective implementation of TF and PF TFS regimes and implementing a risk-based approach to NPOs without disrupting legitimate NPO activities.

The Cayman Islands

Since February 2021, when the Cayman Islands made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, the Cayman Islands has taken steps towards improving its AML/CFT regime, including by advancing ML prosecutions into convictions and demonstrating progress on complex ML cases with a foreign predicate. However, the Cayman Islands should continue to work on implementing its action plan to address its remaining strategic deficiencies, by demonstrating that they are prosecuting all types of money laundering cases in line with the jurisdiction's risk profile and that such prosecutions are resulting in the application of dissuasive, effective, and proportionate sanctions.

The FATF expresses concern that the Cayman Islands failed to complete its action plan, which fully expired in May 2022. The FATF strongly urges the Cayman Islands to swiftly demonstrate significant progress in completing its action plan by June 2023 or the FATF will consider next steps if there is insufficient progress.

The Democratic Republic of the Congo

Since October 2022, when the DRC made a high-level political commitment to work with the FATF and GABAC to strengthen the effectiveness of its AML/CFT regime, the DRC has taken steps towards improving its AML/CFT regime, including by strengthening its legal framework on the criminalization of money laundering. The DRC should continue to work to implement its FATF action plan to address its strategic deficiencies, including by: (1) finalizing the NRA on ML and TF and adopting an AML/CFT national strategy; (2) designating supervisory authorities for all DNFBP sectors, and developing and implementing a risk-based supervision plan; (3) adequately resourcing the FIU, and build its capacity to conduct operational and strategic analysis; (4) strengthening the capabilities of authorities involved in the investigation and prosecution of ML and TF; and (5) demonstrating effective implementation of TF and PF-related TFS.

Croatia

In June 2023, Croatia made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in December 2021, Croatia has made progress on its MER's recommended actions to improve its system by licensing and monitoring the registration of VASPs, enhancing and implementing more effective sanctions in supervisory activities and enhancing implementation of preventive measures for high-risk sectors. Croatia will work to implement its FATF action plan by: (1) Completing the national risk assessment, including assessing the ML/TF risk associated with the misuse of legal persons and legal arrangements and the use of cash in the real estate sector; (2) Increasing FIU human resources and improving analytical capabilities; (3) Continuing to improve LEAs detection, investigation and prosecution of different types of ML, including ML involving a foreign predicate offences and the misuse of legal persons; (4) Demonstrating a sustained increase in the application of provisional measures in securing direct/indirect proceeds, as well as foreign proceeds subject to confiscation; (5) Demonstrating the ability to systematically detect and where relevant investigate TF in line with its risk profile; (6) Establishing a national framework for the implementation of UN TFS measures and providing guidance and conducting outreach and training to the reporting entities; and (7) Identifying the subset of NPOs most vulnerable to TF abuse and providing targeted outreach to NPOs and to the donor community on potential vulnerabilities of NPOs to TF abuse.

Gibraltar

Since June 2022, when Gibraltar made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime, Gibraltar has taken steps to do so, including by demonstrating that the supervisors for trust and company service providers, lawyers, gaming businesses, real estate agents, and other non-bank entities are now using a range of effective, proportionate, and dissuasive sanctions for AML/CFT breaches, specifically by taking more enforcement actions, imposing financial penalties, and publishing the results of cases, where appropriate. Gibraltar should continue to work on implementing its action plan to address its strategic deficiencies, including by showing that it is able to pursue more final confiscation judgments commensurate with the risk and context of Gibraltar.

The FATF notes Gibraltar continued progress across its action plan; however, all deadlines have now expired. The FATF encourages Gibraltar to continue to implement its action plan to address the above-mentioned strategic deficiencies as soon as possible.

Haiti (Statement from February 2023)

In June 2021, Haiti made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime. The FATF recognises the political commitment expressed at a high level and the efforts demonstrated by Haiti to advance its commitments in the midst of the challenging social, economic and security situation within the country. Haiti should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) completing its ML/TF risk assessment process and disseminating the findings; (2) facilitating information sharing with relevant foreign counterparts; (3) addressing the technical deficiencies in its legal and regulatory framework that impede the implementation of AML/CFT preventive measures and implementing risk-based AML/CFT supervision for all financial institutions and DNFBPs deemed to constitute a higher ML/TF risk; (4) ensuring basic and beneficial ownership information are maintained and accessible in a timely manner; (5) ensuring a better use of financial intelligence and other relevant information by competent authorities for combatting ML and TF; (6) addressing the technical deficiencies in its ML offence and demonstrating authorities are identifying, investigating and prosecuting ML cases in a manner consistent with Haiti's risk profile; (7) demonstrating an increase of identification, tracing and recovery of proceeds of crimes; (8) addressing the technical deficiencies in its TF offence and targeted financial sanctions regime; and (9) conducting appropriate risk-based monitoring of NPOs vulnerable to TF abuse without disrupting or discouraging legitimate NPO activities.

Jamaica

Since February 2020, when Jamaica made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, Jamaica has taken steps towards improving its AML/CFT regime, including by ensuring that its definition of beneficial ownership is in line with the FATF Standards. Jamaica should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) ensuring adequate, risk-based supervision in all DNFBP sectors; and (2) demonstrating that accurate and up-to-date basic and beneficial ownership information is available on a timely basis to competent authorities, and effective, proportionate and dissuasive sanctions are applied.

The FATF again expresses concern that Jamaica failed to complete its action plan, which fully expired in January 2022. The FATF strongly urges Jamaica to swiftly demonstrate significant progress in completing its action plan by October 2023 or the FATF will consider next steps, which could include calling on its members and urging all jurisdictions to apply enhanced due diligence to business relations and transactions with Jamaica.

Jordan

In October 2021, Jordan made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime. At its June 2023 plenary, the FATF made the initial determination that Jordan has substantially completed its action plan ahead of the agreed timeline and warrants an on-site assessment to verify that the implementation of AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future. Jordan has made the following key reforms, including: (1) completing and disseminating the ML/TF risk assessments of legal persons and virtual assets; (2) conducting inspections of reporting entities including FIs and DNFBPs; (3) implementing a sanctions mechanism for violations of the transparency obligations related to legal persons and arrangements; (4) applying effective, proportionate, and dissuasive sanctions for noncompliance; (5) pursuing money laundering investigations and prosecutions for predicate offences in line with its risk profile; (6) applying effective, proportionate, and dissuasive sanctions in ML cases; (7) implementing a legal and institutional framework for TFS; and (8) demonstrating that TFS compliance is assessed and TFS deficiencies are rectified.

Mali

Since October 2021, Mali made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime. Mali has taken steps towards improving its AML/CFT regime, including by conducting AML/CFT trainings for FIs and DNFBPs and enhancing the FIU and LEAs cooperation mechanisms on the use of financial intelligence. Mali should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) implementing the national strategic AML/CFT action plan in line with the NRA; (2) developing and starting to implement a risk based approach for the AML/CFT supervision of all FIs and higher risk DNFBPs and demonstrating effective, proportionate and dissuasive sanctions for non-compliance; (3) conducting a comprehensive assessment of ML/TF risks associated with all types of legal persons; (4) increasing the capacity of the FIU and the LEAs and enhancing their cooperation on the use of financial intelligence; (5) conducting parallel financial investigation; (6) strengthening the capacities of relevant authorities responsible for investigation and prosecution of TF cases; (7) strengthening the legal framework and procedures to implement TFS related to TF and PF; and (8) implementing a risk-based approach for supervision of the NPO sector to prevent abuse for TF purposes.

Mozambique

Since October 2022, Mozambique made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in April 2021, Mozambique has made progress on some of the MER's recommended actions to improve its system including by finalising its NRA and strengthening its asset confiscation efforts. Mozambique will work to implement its FATF action plan by: (1) ensuring cooperation and coordination amongst relevant authorities to implement risk-based AML/CFT strategies and policies; (2) conducting training for all LEAs on mutual legal assistance to enhance the gathering of evidence or seizure/confiscation of proceeds of crime; (3) providing adequate financial and human resources to supervisors, developing and implementing a risk-based supervision plan; (4) providing adequate resources to the authorities to commence the collection of adequate, accurate and up-to-date beneficial ownership information of legal persons; (5) increasing the human resources of the FIU as well as increasing financial intelligence sent to authorities; (6) demonstrating LEAs capability to effectively investigate ML/TF cases using financial intelligence; (7) conducting a comprehensive TF Risk Assessment and begin implementing a comprehensive national CFT strategy; (8) increasing awareness on TF and PF-related TFS; and (9) carrying out the TF risk assessment for NPOs in line with the FATF Standards and using it as a basis to develop an outreach plan.

Nigeria (Statement from February 2023)

In February 2023, Nigeria made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in August 2021, Nigeria has made progress on some of the MER's recommended actions to improve its system including by improving its AML/CFT legislative framework, updating its assessment of inherent ML/TF/PF risks and strengthened its implementation of targeted financial sanctions. Nigeria will work to implement its FATF action plan by: (1) completing its residual ML/TF risk assessment and updating its national AML/CFT strategy to ensure alignment with other national strategies relevant to high-risk predicate offences; (2) enhancing formal and informal international cooperation in line with ML/TF risks; (3) improving AML/CFT risk-based supervision of FIs and DNFBPs and enhancing implementation of preventive measures for high-risk sectors; (4) ensuring that competent authorities have timely access to accurate and up-to-date BO information on legal persons and applying sanctions for breaches of BO obligations; (5) demonstrating an increase in the dissemination of financial intelligence by the FIU and its use by LEAs; (6) demonstrating a sustained increase in ML investigations and prosecutions in line with ML risks; (7) proactively detecting violations of currency declaration obligations and apply appropriate sanctions and maintaining comprehensive data on frozen, seized, confiscated, and disposed assets; (8) demonstrating sustained increase in investigations and prosecutions of different types of TF activities in line with risk and enhancing interagency cooperation on TF investigations; and (9) conducting risk-based and targeted outreach to NPOs at risk of TF abuse and implementing risk-based monitoring for the subset of NPOs at risk of TF abuse without disrupting or discouraging legitimate NPO activities.

Panama

In June 2019, Panama made a high-level political commitment to work with the FATF and GAFILAT to strengthen the effectiveness of its AML/CFT regime. At its June 2023 plenary, the FATF made the initial determination that Panama has substantially completed its action plan and warrants an on-site assessment to verify that the implementation of AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future. Panama has made the following key reforms, including: (1) strengthening its understanding of the national and sectoral ML/TF risk and informing findings to its national policies to mitigate the identified risks; (2) taking action to identify unlicensed money remitters, applying a risk-based approach to supervision of the DNFBP sector and applying effective, proportionate, and dissuasive sanctions against AML/CFT violations; (3) verifying updated beneficial ownership information by obliged entities, establishing mechanisms to monitor the activities of offshore entities, assessing the existing risks of misuse of legal persons and arrangements to define and implement specific measures to prevent the misuse of nominee shareholders and directors, and allowing timely access to adequate and accurate beneficial ownership information; and (4) using FIU products for ML investigations, demonstrating its ability to investigate and prosecute ML involving foreign tax crimes and providing constructive and timely international cooperation with such offence, and continuing to focus on ML investigations in relation to high-risk areas identified in the NRA and MER.

Philippines

Since June 2021, when the Philippines made a high-level political commitment to work with the FATF and APG to strengthen the effectiveness of its AML/CFT regime, the Philippines has taken steps to promote understanding of TFS obligations amongst FIs and DNFBPs, to increase the use of financial intelligence and investigative skills of LEAs tasked with ML investigations and to prioritise asset tracing and confiscation at the point of conviction in criminal cases. The Philippines should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) demonstrating that effective risk-based supervision of DNFBPs is occurring; (2) demonstrating that supervisors are using AML/CFT controls to mitigate risks associated with casino junkets; (3) enhancing and streamlining LEA

access to BO information and taking steps to ensure that BO information is accurate and up-to-date; (4) demonstrating an increase in ML investigations and prosecutions in line with risk; and (5) demonstrating an increase in the identification, investigation and prosecution of TF cases.

The FATF urges the Philippines to swiftly implement its action plan to address the above-mentioned strategic deficiencies as soon as possible as all deadlines expired in January 2023.

Senegal

Since February 2021, when Senegal made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime, Senegal has established a database to collect statistics and data on ML/TF investigations and prosecutions and enhanced the framework for coordination and conduct of TF investigations. Senegal should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) improving compliance by detecting AML/CFT violations and imposing effective, proportionate and dissuasive sanctions against non-compliant DNFBPs; (2) updating and maintaining comprehensive beneficial ownership information on legal persons and arrangements and strengthening the system of sanctions for violations of transparency obligations; (3) enhancing capacity and support for LEAs and prosecutorial authorities involved in combatting TF in line with the 2019 TF National Strategy; and (4) implementing an effective TFS regime related to TF and PF as well as risk-based monitoring and supervision of NPOs.

The FATF notes Senegal's continued progress across its action plan, however all deadlines have now expired and work remains. The FATF urges Senegal to swiftly implement its action plan to address the above-mentioned strategic deficiencies as soon as possible.

South Africa

In February 2023, South Africa made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in June 2021, South Africa has made significant progress on many of the MER's recommended actions to improve its system including by developing national AML/CFT policies to address higher risks and newly amending the legal framework for TF and TFS, among others. South Africa will work to implement its FATF action plan by: (1) demonstrating a sustained increase in outbound MLA requests that help facilitate ML/TF investigations and confiscations of different types of assets in line with its risk profile; (2) improving risk-based supervision of DNFBPs and demonstrating that all AML/CFT supervisors apply effective, proportionate, and effective sanctions for noncompliance; (3) ensuring that competent authorities have timely access to accurate and up-to-date BO information on legal persons and arrangements and applying sanctions for breaches of violation by legal persons to BO obligations; (4) demonstrating a sustained increase in law enforcement agencies' requests for financial intelligence from the FIC for its ML/TF investigations; (5) demonstrate a sustained increase in investigations and prosecutions of serious and complex money laundering and the full range of TF activities in line with its risk profile; (6) enhancing its identification, seizure and confiscation of proceeds and instrumentalities of a wider range of predicate crimes, in line with its risk profile; (7) updating its TF Risk Assessment to inform the implementation of a comprehensive national counter financing of terrorism strategy; and (8) ensuring the effective implementation of targeted financial sanctions and demonstrating an effective mechanism to identify individuals and entities that meet the criteria for domestic designation.

South Sudan

Since June 2021, when South Sudan made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, South Sudan has taken steps towards improving its AML/CFT regime, including by preventing criminals from

controlling or owning financial institutions. South Sudan should continue to work to implement its action plan, including by: (1) conducting a comprehensive review of the AML/CFT Act (2012), with the support of international partners, including technical assistance, to comply with the FATF Standards; (2) becoming a party to and fully implementing the 1988 Vienna Convention, the 2000 Palermo Convention, and the 1999 Terrorist Financing Convention; (3) ensuring that competent authorities are suitably structured and capacitated to implement a risk-based approach to AML/CFT supervision for financial institutions; (4) developing a comprehensive legal framework to collect and verify the accuracy of beneficial ownership information for legal persons; (5) operationalising a fully functioning and independent FIU; (6) establishing and implementing the legal and institutional framework to implement targeted financial sanctions in compliance with United Nations Security Council Resolutions on terrorism and WMD proliferation financing; and (7) commencing implementation of targeted risk-based supervision/monitoring of NPOs at risk of TF abuse.

The FATF notes South Sudan's limited progress across its action plan with all deadlines now expired and work remains. The FATF again encourages South Sudan to continue to implement its action plan to address the above-mentioned strategic deficiencies as soon as possible and demonstrate strong political and institutional commitment to strengthen the effectiveness of its AML/CFT regime, particularly in supporting the lead AML/CFT agency in coordinating national AML/CFT efforts.

Syria (Statement from February 2023)

Since February 2010, when Syria made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Syria has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Syria had substantially addressed its action plan at a technical level, including by criminalising terrorist financing and establishing procedures for freezing terrorist assets. While the FATF determined that Syria has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation and will conduct an on-site visit at the earliest possible date.

Tanzania (Statement from October 2022)

In October 2022, Tanzania made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in April 2021, Tanzania has made progress on some of the MER's recommended actions to improve its system including by developing legal framework for TF and TFS and disseminating FIU strategic analysis. Tanzania will work to implement its FATF action plan by: (1) improving risk-based supervision of FIs and DNFBPs, including by conducting inspections on a risk-sensitive basis and applying effective, proportionate, and dissuasive sanctions for non-compliance; (2) demonstrating authorities' capability to effectively conduct a range of investigations and prosecutions of ML in line with the country's risk profile; (3) demonstrating that LEAs are taking measures to identify, trace, seize, and confiscate proceeds and instrumentalities of crime; (4) conducting a comprehensive TF Risk Assessment and begin implementing a comprehensive national CFT strategy as well as demonstrating capability to conduct TF investigations and pursue prosecutions in line with the country's risk profile; (5) increasing awareness of the private sector and competent authorities on TF and PF-related TFS; and (6) carrying out the TF risk assessment for NPOs in line with the FATF Standards and using it as a basis to develop an outreach plan.

Türkiye

Since October 2021, when Türkiye made a high-level political commitment to work with the FATF to strengthen the effectiveness of its AML/CFT regime, Türkiye has taken positive steps towards improving its AML/CFT regime, including by (1) increasing on-site inspections of

reporting entities by supervisors; (2) enhancing the use of financial intelligence to support ML investigations; (3) taking steps to improve a risk-based approach for the supervision of non-profit organisations to prevent their abuse for terrorist financing. Türkiye should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) undertaking more complex ML investigations and prosecutions; and (2) conducting more financial investigations in terrorism cases, prioritising TF investigations and prosecutions related to UN-designated groups.

The FATF notes Türkiye continued progress across its action plan; however, all deadlines have now expired. The FATF encourages Türkiye to continue to implement its action plan to address the above-mentioned strategic deficiencies as soon as possible.

Uganda

Since February 2020, when Uganda made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, Uganda demonstrated progress, including by developing and implementing risk-based supervision of FIs and DNFBPs. Uganda should continue to work to implement its action plan to address its strategic deficiencies, including by: (1) ensuring that competent authorities have timely access to accurate basic and beneficial ownership information for legal entities; and (2) increasing awareness on PF-related TFS by conducting training for FIs and DNFBPs on TFS. The FATF continues to monitor Uganda's oversight of the NPO sector to encourage the application of the risk-based approach to supervision of NPOs in line with the FATF Standards and mitigate unintended consequences.

The FATF expresses concern that Uganda failed to complete its action plan, which fully expired in May 2022. The FATF strongly urges Uganda to swiftly demonstrate significant progress in completing its action plan by October 2023 or the FATF will consider next steps if there is insufficient progress.

The United Arab Emirates

Since February 2022, when the United Arab Emirates (UAE) made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime, the UAE demonstrated significant progress, including by enhancing and maintaining a shared understanding of the ML/TF risks between the different DNFBP sectors and institutions, and ensuring a more granular understanding of the risk of abuse of legal persons and legal arrangements for ML/TF.

The UAE should continue to work to implement its FATF action plan by: (1) demonstrating a sustained increase in the application of effective, proportionate and dissuasive sanctions for FI and DNFBP noncompliance with AML/CFT requirements; showing that DNFBP sectors are implementing risk-based CDD; and showing an increase in the number and quality of STRs filed by FIs and DNFBPs; (2) demonstrating a sustained increase in the issuance of dissuasive, effective and proportionate sanctions where necessary for breaches of beneficial ownership obligations and (3) demonstrating a sustained increase in effective investigations and prosecutions of different types of ML cases consistent with UAE's risk profile.

Vietnam

In June 2023, Vietnam made a high-level political commitment to work with the FATF and APG to strengthen the effectiveness of its AML/CFT regime. Since the adoption of its MER in November 2021, Vietnam has made progress on some of the MER's recommended actions by joining the Asset Recovery Interagency Network Asia Pacific (ARIN-AP) and adopting a national action plan on AML/CFT/CPF. Vietnam will work to implement its FATF action plan by: (1) Increasing risk understanding, domestic co-ordination and co-operation to combat ML/TF; (2) Enhancing international co-operation; (3) Implementing effective risk-based supervision for FIs and DNFBPs;

(4) Taking action to regulate virtual assets and virtual asset service providers; (5) Addressing technical compliance deficiencies, including with respect to the ML offence, targeted financial sanctions, customer due diligence and suspicious transaction reporting; (6) Conducting outreach activities with the private sector; (7) Establishing a regime that provides competent authorities with adequate, accurate and up-to-date information on beneficial ownership; (8) Ensuring the independence of the FIU and enhancing the quality and quantity of financial intelligence analysis and disseminations; (9) Prioritizing parallel financial investigations and demonstrating an increase in the number of ML investigations and prosecutions undertaken; (10) demonstrating that there is monitoring of FIs and DNFBPs for compliance with PF TFS obligations and that there is co-operation and co-ordination between authorities to prevent PF TFS from being evaded.

Yemen (Statement from February 2023)

Since February 2010, when Yemen made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Yemen has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Yemen had substantially addressed its action plan at a technical level, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing procedures to identify and freeze terrorist assets; (3) improving its customer due diligence and suspicious transaction reporting requirements; (4) issuing guidance; (5) developing the monitoring and supervisory capacity of the financial sector supervisory authorities and the financial intelligence unit; and (6) establishing a fully operational and effectively functioning financial intelligence unit. While the FATF determined that Yemen has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and conduct an on-site visit at the earliest possible date.
