Advisory Notice: FSC2023/03

Money Laundering and Terrorist Financing Controls in Higher Risk Jurisdictions

Requirement to apply Enhanced Due Diligence for higher risk jurisdictions.

The Anti-Money Laundering and Terrorist Financing Regulations (AML/TF Regulations) require all service providers licensed and registered on Montserrat to apply enhanced customer due diligence in relation to high-risk countries.

Regulation 7(1)(b) of the AML/TF Regulations requires relevant businesses (“service providers”) to apply enhanced customer due diligence measures and enhanced ongoing monitoring in any business relationship with a person “connected with a country that does not apply, or insufficiently applies (higher risk jurisdictions) the Financial Action Task Force (FATF) Recommendations.

For these purposes, *Regulation 5(1) and (5)(a)* prescribes that a service provider shall apply customer due diligence measures and conducting ongoing monitoring in the following instances:

- before the service provider establishes a business relationship or carries out an occasional transaction;
- where the service provider—
 - suspects money laundering or terrorist financing; or
 - doubts the veracity or adequacy of documents, data or information previously obtained under its customer due diligence measures or when conducting ongoing monitoring; and
- at other appropriate times to existing customers as determined on a risk-sensitive basis.
- assess the risk that any business relationship or occasional transaction involves, or will involve, money laundering or terrorist financing, depending upon the type of customer, business relationship, product or transaction;

Code 12(h) to (l) of the Anti-Money Laundering and Terrorist Financing Code 2016 (the Code) further prescribes that a service provider shall apply enhanced customer due diligence measures in the following instances:

- a country identified as not having adequate AML/CFT systems, by credible sources including mutual evaluation, detailed assessment reports or published follow-up reports;
- a country subject to a sanction, embargo or similar measure;
- a country identified by credible sources as having a significant level of corruption or other criminal activity;
- circumstances which give rise to suspicion of money laundering or terrorist financing; and
- if a high risk is identified through a national risk assessment or an adequate analysis of risk by the service provider, if a national risk assessment does not exist.

As the international anti-money laundering and counter-terrorist financing (AML/CTF) standard-setter, FATF regularly publishes statements; ‘Jurisdictions under increased monitoring’ and ‘High-risk jurisdictions subject to a call for action’ that identify high-risk

countries based on assessments of their AML/CTF regimes. In line with AML/TF Regulation (7)(1)(b), the Financial Services Commission would like to draw service provider's attention to the latest publication by FATF on high-risk jurisdictions.

FATF Public Statement

On 27 October 2023 the FATF published two statements identifying jurisdictions with strategic deficiencies in their AML/CTF regimes. These statements can be found at **Annex A** and **Annex B** respectively. **Annex C** identifies jurisdictions that are no longer subject to increased monitoring by the FATF.

In response to the latest FATF statements, the Financial Services Commission advises relevant businesses to implement the following instructions:

Background Information

1. This advice replaces all previous advisory notices issued by the Financial Services Commission on this subject.
2. The Financial Action Task Force is an inter-governmental body established by the G7 in 1989 and today includes as members 37 jurisdictions and two regional organizations (the European Commission and the Gulf Co-operation Council).
3. The Commission’s strategy is to use financial tools to deter crime and terrorism; detect it when it happens; and disrupt those responsible and hold them to account for their actions. The FATF is central to Montserrat’s international objectives within this strategy.
4. The Anti-Money Laundering and Terrorist Financing Regulations and the Anti-Money Laundering and Terrorist Financing Code 2016, require relevant businesses to put in place policies and procedures in order to prevent activities related to money laundering and terrorist financing. Regulated persons and businesses are also required to apply enhanced customer due diligence and enhanced ongoing monitoring on a risk-sensitive basis in certain defined situations and in any other case which by its nature can present a higher risk of money laundering or terrorist financing.
5. The Financial Services Commission requires relevant businesses to take reasonable care to establish and maintain systems and controls for countering the risk that the relevant business might be used to further financial crime.

Annex A: Relevant extracts from the FATF’s statement on High-Risk Jurisdictions subject to a Call for Action

“High-Risk Jurisdictions subject to a Call for Action (Unchanged from February 2020 and October 2022) – October 2023”

High-risk jurisdictions have significant strategic deficiencies in their regimes to counter money laundering, terrorist financing, and financing of proliferation. For all countries identified as high-risk, the FATF calls on all members and urges all jurisdictions to apply enhanced due diligence, and, in the most serious cases, countries are called upon to apply counter-measures to protect the international financial system from the money laundering, terrorist financing, and proliferation financing (ML/TF/PF) risks emanating from the country. This list is often externally referred to as the “black list”. Since February 2020, in light of the COVID-19 pandemic, the FATF has paused the review process for Iran and DPRK, given that they are already subject to the FATF’s call for countermeasures. Iran reported in July 2023 with no material changes in the status of its action plan. Thus, the FATF reiterates its call to apply countermeasure on these high-risk jurisdictions included in its 21 February 2020 statement.

Democratic People’s Republic of Korea (Unchanged since February 2020)

The FATF remains concerned by the DPRK’s failure to address the significant deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime and the serious threats they pose to the integrity of the international financial system. The FATF urges the DPRK to immediately and meaningfully address its AML/CFT deficiencies. Further, the FATF has serious concerns with the threat posed by the DPRK’s illicit activities related to the proliferation of weapons of mass destruction (WMDs) and its financing.

The FATF reaffirms its 25 February 2011 call on its members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with the DPRK, including DPRK companies, financial institutions, and those acting on their behalf. In addition to enhanced scrutiny, the FATF further calls on its members and urges all jurisdictions to apply effective counter-measures, and targeted financial sanctions in accordance with applicable United Nations Security Council Resolutions, to protect their financial sectors from money laundering, financing of terrorism and WMD proliferation financing (ML/TF/PF) risks emanating from the DPRK. Jurisdictions should take necessary measures to close existing branches, subsidiaries and representative offices of DPRK banks within their territories and terminate correspondent relationships with DPRK banks, where required by relevant UNSC resolutions.

Iran (Unchanged since February 2020)

In June 2016, Iran committed to address its strategic deficiencies. Iran’s action plan expired in January 2018. In February 2020, the FATF noted Iran has not completed the action plan.

In October 2019, the FATF called upon its members and urged all jurisdictions to: require increased supervisory examination for branches and subsidiaries of financial institutions based in Iran; introduce enhanced relevant reporting mechanisms or systematic reporting of financial transactions; and require increased external audit requirements for financial groups with respect to any of their branches and subsidiaries located in Iran.

Now, given Iran’s failure to enact the Palermo and Terrorist Financing Conventions in line with the FATF Standards, the FATF fully lifts the suspension of counter-measures and calls on its members and urges all jurisdictions to apply effective counter-measures, in line with Recommendation 19.

Iran will remain on the FATF statement on High Risk Jurisdictions Subject to a Call for Action until the full Action Plan has been completed. If Iran ratifies the Palermo and Terrorist Financing Conventions, in line with the FATF standards, the FATF will decide on next steps, including whether to suspend countermeasures. Until Iran implements the measures required to address the deficiencies identified with respect to countering terrorism-financing in the Action Plan, the FATF

will remain concerned with the terrorist financing risk emanating from Iran and the threat this poses to the international financial system.

Myanmar (Unchanged since October 2022)

In February 2020, Myanmar committed to address its strategic deficiencies. Myanmar's action plan expired in September 2021.

In June 2022, the FATF strongly urged Myanmar to swiftly complete its action plan by October 2022 or the FATF would call on its members and urge all jurisdictions to apply enhanced due diligence to business relations and transactions with Myanmar. Given the continued lack of progress and the majority of its action items still not addressed after a year beyond the action plan deadline, the FATF decided that further action was necessary in line with its procedures and FATF calls on its members and other jurisdictions to apply enhanced due diligence measures proportionate to the risk arising from Myanmar. When applying enhanced due diligence measures, countries should ensure that flows of funds for humanitarian assistance, legitimate NPO activity and remittances are not disrupted.

Myanmar should continue to work on implementing its action plan to address these deficiencies, including by: (1) demonstrating an improved understanding of ML risks in key areas; (2) demonstrating that on-site/offsite inspections are risk-based, and hundi operators are registered and supervised; (3) demonstrating enhanced use of financial intelligence in law enforcement authorities (LEAs) investigations, and increasing operational analysis and disseminations by the financial intelligence unit (FIU); (4) ensuring that ML is investigated/prosecuted in line with risks; (5) demonstrating investigation of transnational ML cases with international cooperation; (6) demonstrating an increase in the freezing/seizing and confiscation of criminal proceeds, instrumentalities, and/or property of equivalent value; and (7) managing seized assets to preserve the value of seized goods until confiscation.

The FATF urges Myanmar to work to fully address its AML/CFT deficiencies, including to demonstrate that its monitoring and supervision of money or value transfer services (MVTs) is based on documented and sound understanding of ML/TF risks to mitigate undue scrutiny of legitimate financial flows.

Myanmar will remain on the list of countries subject to a call for action until its full action plan is completed.

Annex B: Relevant extracts from the FATF’s Statement on Jurisdictions under Increased Monitoring – June 2023

Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the “grey list”.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions below as they report on the progress achieved in addressing their strategic deficiencies. The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions. The FATF Standards do not envisage de-risking, or cutting-off entire classes of customers, but call for the application of a risk-based approach. Therefore, the FATF encourages its members and all jurisdictions to take into account the information presented below in their risk analysis.

The FATF identifies additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF or their FSRBs, but will be in due course.

The FATF provides some flexibility to jurisdictions not facing immediate deadlines to report progress on a voluntary basis. The following countries had their progress reviewed by the FATF since October 2023: Albania, Barbados, Burkina Faso, Cayman Islands, Democratic Republic of Congo, Gibraltar, Haiti, Jamaica, Jordan, Mali, Mozambique, Nigeria, Panama, Philippines, Senegal, South Africa, South Sudan, Tanzania, Türkiye, UAE, and Uganda. For these countries, updated statements are provided below. Cameroon, Croatia, Syria and Vietnam chose to defer reporting; thus, the statements previously issued for those jurisdictions are included below, but this may not necessarily reflect the most recent status of the jurisdictions’ AML/CFT regimes. Following review, the FATF now also identifies Bulgaria.

Barbados

In February 2020, Barbados made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime. At its October 2023 Plenary, the FATF made the initial determination that Barbados has substantially completed its action plan and warrants an on-site assessment to verify that the implementation of the AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future.

Burkina Faso should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) strengthening resource capacities of all AML/CFT supervisory authorities and implementing risk based supervision of FIs and DNFBPs; (2) maintaining comprehensive and updated basic and beneficial ownership information of legal persons and strengthening the system of sanctions for violations of transparency obligations; (3) increasing the diversity of suspicious transactions reporting; (4) establishing procedures for effective implementation of declaration of cross-border transportation of currencies and bearer negotiable instruments; (5) conducting TF investigations and prosecutions in line with its risk profile; and (6) implementing an effective TFS regime related to TF and PF as well as risk-based monitoring and supervision of NPOs.

The FATF recognises the political commitment expressed at a high level and the efforts demonstrated by Haiti to advance its commitments in the midst of the challenging social, economic and security situation within the country. Haiti should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) completing its ML/TF risk assessment process and disseminating the findings; (2) implementing risk-based AML/CFT supervision for all financial institutions and DNFBPs deemed to constitute a higher ML/TF risk; (3) ensuring basic and beneficial ownership information are maintained and accessible in a timely manner; (4) ensuring a better use of financial intelligence and other relevant information by competent authorities for combatting ML and TF; (5) demonstrating authorities are identifying, investigating and prosecuting ML cases in a manner consistent with Haiti's risk profile; (6) demonstrating an increase of identification, tracing and recovery of proceeds of crimes; (7) addressing the technical deficiencies in its targeted financial sanctions regime; and (8) conducting appropriate risk-based monitoring of NPOs vulnerable to TF abuse without disrupting or discouraging legitimate NPO activities.

While the FATF determined that Syria has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. Türkiye should continue to work on implementing its action plan to address its one remaining strategic deficiency, specifically by confiscating assets related to terrorist financing consistent with its terrorist financing risk.

The FATF notes Türkiye continued progress across its action plan; however, all deadlines have now expired. The FATF encourages Türkiye to continue to implement its action plan to address the above-mentioned strategic deficiency as soon as possible.

The FATF will continue to monitor the situation and conduct an on-site visit at the earliest possible date.
